

Jerry Palma, the electric detective, is known to elementary students as A.C.Sparks. He is kept busy visiting 3rd graders in 15 elementary schools in our service territory during the school year. A.C.Sparks has a mini-farm that he lugs around to show kids what happens when grain augers or kite tails get caught in the power lines. He strives to explain electricity in a way young audiences can understand, and follows with a quiz at the end of his presentation to make sure their homes are electrically safe as possible.

His schedule for this school year is:

9-04-07 Woodlawn Elementary, begin 1:00 p.m.
9-28-07 Meadowlawn Elementary, begin 12:30
10-10-07 Eastlawn Elementary, begin 8:30 a.m.
10-24-07 All Saints Catholic School, begin 1:00
11-01-07 Frontier Elementary, begin 8:20 a.m.
11-21-07 Camden Elementary, begin 12:30 p.m.
